## ANYWHERE CHAIR Assembly Instructions

Your Anywhere chair ships in two boxes. The slipcover is shipped separately from the interior components. These assembly instructions assume you have received BOTH the slipcover and the interior components.

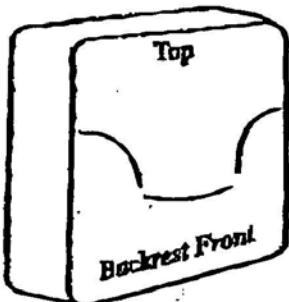

**CARE INSTRUCTIONS:** To clean cover, remove interior parts. Wash cover in cold water by itself. Do not use bleach. Tumble dry low heat. Replace interior parts in cover.

### Interior Components Parts List

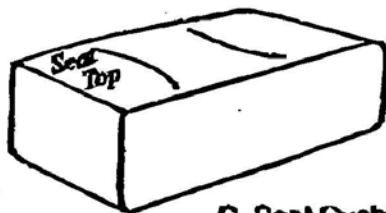

- A. Backrest Cushion (1)
- B. Arm Cushions (2)
- C. Seat Cushion (1)

B. Arm Cushions

A. Backrest Cushion

C. Seat Cushion

### Slipcover Parts List

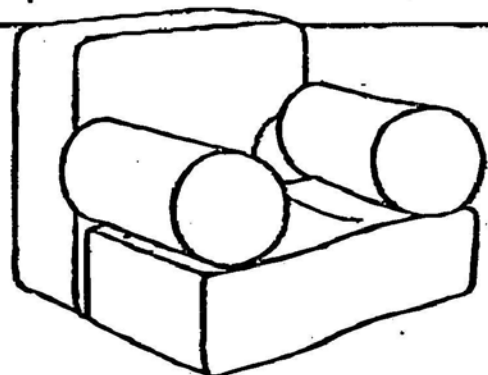

- D. Slipcover (1)

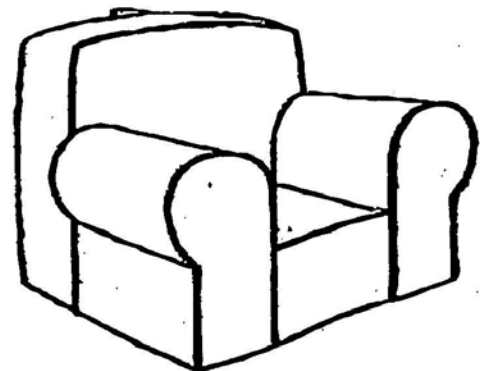

**Note:** your slipcover ships folded. Before assembling, if you would like to get out the wrinkles, place the slipcover in a dryer on medium heat for 15 minutes with a damp towel. Then assemble.

Please familiarize yourself with the Anywhere Chair slipcover's shape and think of placing pillows inside of pillow cases, it is a similar procedure.

- 1) Locate the zipper on the bottom of the slipcover and unzip it.
- 2) Locate the cushion labeled "Backrest". Place this cushion into the slipcover so that the words "backrest front" face forward. It is easiest to fit the sides of the slipcover to the cushion.
- 3) At the base of the Back Cushion, within the slipcover, locate 2 fabric flaps with Touch Fastener on the ends. Fasten these over the end of the Back Cushion to hold it in place. Pull as tight as possible.
- 4) Insert the cushions labeled "Arm". Fit them into the arms shapes of the slipcover and fasten the flaps with Touch Fastener as you did the Backrest Cushion.
- 5) Insert the cushion labeled "Seat Top". Be sure that the words "Seat Top" is facing up toward the top of the chair.
- 6) Zip slipcover closed. Adjust cushions so they fit well within the slipcover.
