PRE-ASSEMBLY:
- For safety and ease, assembly by two adults is recommended.
- Remove all parts and hardware from the box and lay out on a clean, carpeted, or scratch-free work surface. Use care as some parts or hardware may have sharp points or edges.
- Do not dispose of any contents until assembly is completed to avoid accidentally discarding small parts or hardware.
- Use the parts and hardware lists to identify and separate each of the pieces included.
- Read all instructions before beginning assembly. The illustrations provided allow for easier assembly when used in conjunction with the assembly instructions.
- Note: Do not fully tighten all bolts until all parts are in place. Failure to follow these instructions may cause the bolts to misalign during assembly.
- If using power tools to aid in assembly please use caution. Power tools can damage hardware or split wood.

PARTS INCLUDED:
- A - Headboard (1 pc)
- B - Footboard (1 pc)
- C - Side rail (2 pc)
- D - Finials (4 pc)
- E - Feet (4 pc)
- F - Slat Roll (1 pc)
- G - Slat Support (1 pc)
- H - Support Legs (3 pc)

HARDWARE INCLUDED:
- I – Small Phillips Head Screws (12 pc) 6x15mm
- J – Large Phillips Head Screws (28 pc) 8x30mm
- K – “L” Shape Slat Bracket (2 pc)

TOOLS NEEDED:
Phillips Head Screwdriver (not included)
ASSEMBLY INSTRUCTIONS:
1. Attach the feet (E) to the bottom posts of the headboard and footboard as shown. Important: The bottom of the footboard bedpost has 4 holes, while the top of the footboard bedpost has 3 holes.

2. Attach the side rails (C) to the headboard and footboard by inserting the hooked ends into the corresponding slots.
   **NOTE:** Side rails (C) are adjustable to two heights.
   - If you are using a **trundle**, or are assembling the bed for to be used with a **mattress only** (no box spring), please insert side rails into **upper slots**.
   - If you are using a **mattress and box spring**, please insert side rails into **lower slots**.

3. Screw Finials (D) into the post of headboard and footboard.

4. Prepare to assemble Slat Support Rail (G), by attaching the “L” Shape Slat Bracket (K) into the headboard and footboard using the Small Phillips Head Screws (I) as shown in Figure 1.
   **NOTE:** Slat Support Rail (G) is adjustable to four possible positions:
   - If you are using the **trundle**, the Slat Support (G) must be placed either on the right (position K1) or left (position K2) of headboard / footboard to allow the trundle to slide under the bed (See Figure 1). Slat support (G) should be placed on right (K1) if the trundle will slide out to the left of the bed, or on the left (K2) if the trundle will slide out to right side of bed (See Figure 2 on Pg. 3).
   - If you are **NOT** using the trundle, Slat Support (G) must be positioned in K3 (for use with **mattress only**) or K4 (for use with **mattress and box spring**).
5. Screw Support Legs (H) into the Slat Support (G) and ensure all are tight (Figure 3).

6. Attach Slat Support (G) to “L” Shape Bracket (K) using the Small Phillips head screws (I) (Figure 3).
7. Lay the Slat Roll (F) in on the Side Rails (C) and fasten with Large Phillips Head Screws (J) using the Phillips head screwdriver (Figure 4).

![Figure 4](image)

8. Retighten all bolts and screws to secure bed structure. It is recommended all bolts and screws be checked from time to time for safety.

CARE INSTRUCTIONS:
- Dust often using a clean, soft, dry lint-free cloth.
- Blot spills immediately, and wipe with a clean, damp, cloth.
- We do not recommend the use of chemical cleansers, abrasives, or furniture polish on our lacquered finish.
- If the unit’s is to be stored, store in cool dry place and carefully package all original hardware to protect from loss or damage.
- Check fasteners periodically for tightness. **DO NOT over tighten.** This may cause distortion or breakage
